Index 1998

Subject

A-level chemistry, Salters', 67L
A-level experiment, gas reactions, 21
A-level experiment, saponification, esters, 21
A-level standards, 115C
A-level, investigations, 17, 21, 107, 127
A-level, skills test, 115C
Acetylcholine neurotransmitter, 124
Advanced Highers, 88C
AIDS, theories of infection and therapy, 12, 122L
Alchemy, 15
Alkanes, chemistry trail, 8C
Analgesics, 49, 127
ASE, Liverpool, 35C
Aspirin, analysis, 127
Aspirin, discovery and mode of action, 47
Atmospheric chemistry, 68
Atom trapping, 10C
Avogadro's number, new definition, 11L

Beaches, chemistry trail, 63C
Belousov–Zhabotinsky reaction, 18, 50, 72
Benzene etymology, 37C
Berzelius, Jöns Jacob, 95
Biological clocks, 50
Biosphere II, 71
Blondlot, René, 84
Book reviews
1988 Education Reform Act, 82
A-level chemistry revision, 27
A-level chemistry, 27, 55, 82, 111
Bioinorganic chemistry, 27
Certificate of Science, 164
Chemistry principles, understanding and application, 138
Chemists' achievements, 165
Coordinated science, 54
Electrochemistry, 165
Environmental chemistry, A-level, 55
Environmental pollution, 27
Foundation chemistry, 54
GCSE modular science, 26, 81
GCSE science, 26, 82, 111, 137, 164
GCSE, the Salters' approach, 54, 81
General chemistry, 54, 111, 137
General science philosophy, 26
GNVQ Intermediate Science, 54
Initial teacher education, 82
Inorganic chemistry, undergraduate, 55
Laboratory chemistry, A-level, 55, 138
Laboratory chemistry, undergraduate, 55
Life chemistry and molecular biology, 138
Mentoring for science teachers, 82
National Curriculum, 26, 82
Organic chemistry, undergraduate, 83, 138
Organic reaction mechanisms, 27, 165
Organic stereochemistry, 111
p-block elements, 82
Physical chemistry, undergraduate, 111, 165, 166
Porphyrin chemistry, 82
Practical inorganic chemistry, 139
Protein chemistry, 82
Safety, 26
SATIS, 54
Science at work, 81, 82
Science study guide, undergraduate, 83
Science, KS3, 165
Science, SATs, 165
Scientific and technical literacy, 111
Statistical analysis, methods, 166
Statistical mechanics, 139
Synthetic organic chemistry, 166
Water chemistry, 138
World of science, 54
Briggs–Rauscher reaction, 50
Bullet proof vests, chemistry, 119C
BZ reaction, target and spiral waves, 73

Caffeine, analysis, 127
Capsaicin, 62C
Carbon dioxide in global warming, 122L
Carbon-14, 39L
Catalysis, 72, 97
Chemical degradation, 28
Chemical garden, 126
Chemical kinetics, 94L
Chemical poetry, 11L
Chemical research in the sixthform, 101
Chemical symbols, 96
Chemistry Camps, 117C
Chemistry graduates, quality, 58C
Chemistry syllabuses, 30C
Chemistry teachers, falling numbers, 31C
Chemistry trails, 8C, 63C, 118C
Chemistry Video Consortium, 36C, 145C
Chemistry Week, 4C
Chemlingo, 37C, 93C, 149C
Chemosensors, 107
Chemsoc, 62C, 146C
Chiral discrimination, 106
Chlorate flash reaction, 99
Chocolate, chemistry of, 32C
Clock reaction, 76
Computer-simulated conductimetric titrimetry, 77
Concentration units, 109
Curie, Marie, 16, 151
Curriculum development, 86C

Dearing HE report, background, 3C
Developing chemical intellect, undergraduate, 130
Discovery of selenium, 97
Discovery of thorium, 96
Distance learning, Canada, 19
Distillates
AND gates, 53
Catalysts, 164
Cosmic dust, chemistry, 110
Electrochemical chemiluminescence, 53
Insulin test, 164
Logical molecules, 53
Nature of science, progression, 25
Polycyclic aromatic hydrocarbon, 53
Qualifications for employment and HE, 136
Quartz crystal microbalance, 164
Science in society, 25
Steroid molecules, 110
Twisted hydrocarbons, 53
Understanding chemical reactions, 136
Vaccine, *Escherichia coli O157*, 110
Women scientists in HE, 136
Distillation, malt, 40
Double award science syllabuses, 30C, 150L

Earth's atmosphere, chemical composition, 68
European chemistry core, 38L
European Science Centres, 33C
Evolution versus Creation theory, 39L
Exothermic reactions, 98

Fermentation, whisky production, 41
Flash photolysis, undergraduate experiment, 134
Fluorimetry, 129
Food chemistry, 89C
Formative assessment, 114C
Four stage rocket reaction, 99
Further education, quality report, 88C
Future of higher education, 58C

Gas reactions, experimental, 21
GCSE–A-level interface, 65C
GCSE dual award science, 65C
GCSE, standards, 30C
GCSE syllabus coverage, 30C
Global warming, 71
Graduate Teacher Training Registry, 31C
Graduates, employability, 59C
Green spontaneous fire reaction, 99
Greenhouse gases, 71
Grignard reactions, 67L, 102
GRSC external examinations, 38L

***H**elicobacter pylori* bacteria, 94L
Higher education, expectations, 58C
Higher education, quality assurance, 61C, 87C, 143C
History of chemistry, aspirin production, 47
History of chemistry, catalysis, 97
History of chemistry, N-rays, 84
History of chemistry, silicon isolation, 96
History of chemistry, symbols, 96
HIV inhibitors, 13, 14
Hubbard, Ann, Shaw medal winner, 31C
Hydrogen peroxide reactions, 79
Hyperbaric oxygen therapy, 122L

Ice ages, causes, 68
Infochem
Accountant, careers, No 54
Artificial blood, No 52
CD materials, No 54
CFCs, No 49
Chemical de-icer, No 54
Chewing gum, No 51
Chlorine chemistry, No 49
Combinatorial chemistry, No 52
Dental materials, No 49
DNA fingerprinting, No 52
Hair dye, chemistry, No 53
Hair repair treatments, No 50
Information officer, careers, No 49
Patent examiner, careers, No 50
Peptic ulcers, No 50
Post-it notes, No 51
Production assistant, careers, No 52
PVC, No 49
Safety officer, careers, No 51
Scanning electron microscopy, No 50
Science journalist, careers, No 53
Synthetic antivirals, No 53
Tagamet, No 50
Infrared spectroscopy, 130
Inorganic reaction mechanisms, 75
Instant coffee reaction, 99
International chemistry landmark, Tagamet, 9C
Internet sites, for schools, 34C, 121C
In vivo diagnostics, 108
Ionic discrimination, 104
Ionisation energy, 67L
Isomerism, history of, 97

Kamen, M. D., 39L
Kevlar, 119C

Laboratory work, undergraduate, 56
Lecture–demonstrations, 60C
Life support reactions, 68
Lifelong learning, 87C
Logic problems, 66L

MChem/MSci, 2C, 58C
Meloxicam, 'super aspirin', 49
Menthane-3,8-diol, synthesis, 101
Molecular discrimination, 104
Molecular shapes, 67L
MRI diagnostic imaging, 108

National Curriculum, revision, 38L
Natural product chemistry, 28
Nerve agents, 123
Nerve signals, transmission, 73
Network series, 36C
Nobel prize, chemistry, 10C
Nobel prize, physics, 10C
Noble gases, isolation, 15
Nomenclature inconsistencies, 11L
Non-linear kinetics, 50
N-rays, 84

Oceans, chemistry of, 68
Olympiad, competition, 116C
Open University TV guide, 24
Optical activity, 97
Orange volcano reaction, 98
Organophosphorus pesticides, 123
Oscillating reactions, 50, 73
Oxygen and sulphur chemistry, differences, 122L

Paracetamol, synthesis and analysis, 127
Perry model, 130
Persulphate–iodide reaction, 75
PGCE chemistry courses, 31C
PhD students, in schools, 45
Phenacetin, 127
Phosphorus chemistry, 123
Photosynthesis, 68
Pink flame reaction, 98
Planetary atmospheres, 68
Plastics, chemistry trail, 118C
Positive molecular discrimination, 104
Practical chemistry, university, 38L
Practical school chemistry, coverage, 140
Project Improve, 36C, 92C
Prout, William, 93C
Public understanding of chemistry, 4C
Pupil Researcher Initiative, 44

QAA, *An agenda for quality*, 61C
Quality in HE, 61C, 87C, 143C
Quinine, analysis, 127

Radiocarbon dating, 39L
Ramsay, Sir William, 15
Rate equation, 94L
Recyclable plastics, 118C
Redox behaviour, 122L
Redox titration, 75, 78
Registered external examiners, 62C, 88C
Research Assessment Exercise, 93
Revisiting standards, 30C
RSC, Assessment Group, 115C
RSC, Chemical education awards, 144C
RSC, Chemical landmarks, 9C
RSC, Chemistry Week, 4C
RSC, Chemsoc, 62C, 146C
RSC, Education Division HE teaching awards, 148C
RSC, Industrial chemistry video, 35C
RSC, Mason report, 58C
RSC, Masterclasses, 60C
RSC, on A-level standards, 115C
RSC, on the National Curriculum, 61C
RSC, report on GCSE standards, 30
RSC, Top of the Bench winners, 61C
Ruben, S., 39L
Rutherford, Ernest, 16, 84, 93C

Safety in labs, 38L
Salters' A-level chemistry, investigative work, 17
Salters' Chemistry Club final, 120C
Salters' Chemistry Teacher prize, 8C
Saponification of esters, 21
School chemistry, Internet resources, 121C
School chemistry, syllabuses for 2000, 38L
School curriculum, 11L
School practical work, 94L, 140, 150L
School–college interface, US, 86C
Science education, Scotland, 88C
Science teachers, training, 61C
Scientific Research in Schools Scheme, 101
Scotch whisky, production, 40
Scottish Qualifications Authority, 88C
Second order rate constants, 132
Self-assessment by pupils, 114C
Sense-ational, chemical art exhibition, 4C
Shaw, Colonel B. D., 31C
Significant figures, 66L
Sixthform research, 101
Size recognition of ions, 104
Snake venom, 7C, 67L
Sodium silicate, 126
Software reviews
A-level chemistry, 139
A-level, interactive laboratory, 139
Spreadsheets, 83
States of matter, 83
Soundbite molecules, 7C, 32C, 62C, 89C, 119C, 145C
Stomach ulcers, 94L
Strong acid–strong base titration, 77
Students' perception of chemistry, 65C, 112
Synthesis and analysis of analgesics, 127
Systematic names, 37C

Tagamet, 9C, 94L
Teaching kinetics in the lab, 50
Thermite reaction, 100
Thiosulphate–iodine reaction, 75
Titrimetric analysis, 128
Transmutation, 16
Turin Shroud, 39L

Ultraviolet spectroscopy, 128
Undergraduate practical, flash photolysis, 134
Undergraduate practical, kinetics, 50
Undergraduate, chemical intellect, 130
Units, 66L, 109, 122L
University chemistry courses, 19, 28, 56, 58C, 59C
University chemistry courses, perceptions, 56, 112, 150L
US chemical education, 86C

Vanadium, ionisation energy, 67L
Virtual chemistry, 38L

Web browsing, 34C
Web watch, 121C
Whisky chemistry, 40

X-rays, 84

Ytterbium, 38L
